

Research Plan (Structure & Material Research Division)

Please write the title and summary of your research proposal and the name of your prospective academic supervisor in the designated areas. In the Box (2 pages), describe the details of your proposed research plan, including followings: (a) Background, (b) Objectives and Contents, (c) Characteristics and Originality, (d) Research Plan (schedule, specific methods), and (e) Expected Research Results.

When filling out the research plan, include the relationship between the content of your previous studies, graduation research and design, and previous papers and literature, and make the research plan easy to read. Figures and tables may be included as appropriate.
